Proficient in HTML5, CSS3(BEM), JavaScript ES6+, React.js (+hooks), npm, Git, GitHub, Jest, TypeScript, and SCSS, familiar with Redux, yarn, SQL, Firebase, PHP, Java, C#, C++, and Python.

PROFESSIONAL EXPERIENCE

KWnetic   Remote
Freelance Frontend Software Engineer   November 2021 - Present

- Developed and maintained **5+** scalable, responsive, multi-platform and SEO-friendly landing page websites for clients using **HTML5, CSS3 + BEM, JavaScript ES6+, React.js, TypeScript and SCSS**.
- Implemented best practices to optimize multiple web pages' performances for a high volume of clients in a short period of time
- Dealt with reaching out to multiple potential clients for freelance work, and made sure websites were up to their standard

Amelia – (website)   Toronto, ON, Canada
Software Engineer Intern   May 2022 – July 2022

- Developed maintainable and testable code in a mobile and web application used by **over 10,000 users** in Canada every day
- Shipped new product features using the **React Native framework** across iOS and Android applications tested with **Jest**
- Managed the lifecycle of the mobile and web application development using **CI/CD deployment processes**
- Collaborated with the Tech Lead, other interns, UI/UX designers, and the founding team in a **scrum agile environment**

PROJECTS

Movie Database React App – "Flicks" (View project) – (GitHub)   May 2022

- Designed, developed, and hosted a movie lookup app made using **HTML5, CSS3 + BEM, JavaScript and React.js** best practices.
- Implemented and executed **Axios** to **fetch data** from OMDb API **asynchronously** and displayed data as media content.
- Included SEO, responsive, multi-platform, and hosting support.

Social Media Clone - Twitter (View project) - (GitHub)   April 2022

- Created a responsive social media web app clone using **HTML5, CSS + BEM, JavaScript, React.js, and Firebase v9** best practices.
- Stored and fetched tweets using **Firebase Cloud database**.
- Utilised **Twitter's API** to fetch tweets and display them on the user interface with **best UI/UX principles**

ADDITIONAL

Languages: Fluent in English, limited working proficiency in French.
Interests: Gaming, lifting weights, racing with fast cars on the track
